Logistics Manager – API Endpoint Listing

Overview

This document lists all API endpoints required by the **Logistics Manager Interface** and maps each one to its corresponding **database tables**.
The endpoints cover the main managerial functions:

- Dashboard KPIs and performance tracking (US1)
- Carrier comparison and selection (US2)
- Reports and analytics generation (US3)

Dashboard

Method	Endpoint	Description	Main Tables
GET	`/dashboard/summary`	Retrieve global dashboard summary (orders processed, pending pickups, deliveries completed, exception rate)	`orders`, `delivery_exceptions`, `warehouses`, `kpi_metrics`
GET	`/dashboard/kpis?period=<daily/weekly/monthly>`	Retrieve historical KPI trends for chart rendering	`kpi_metrics`
GET	`/dashboard/performance-charts`	Get comparative performance per carrier (on-time rate, avg cost, reliability)	`kpi_metrics`, `carriers`
GET	`/dashboard/quick-stats`	Retrieve daily operational stats (orders processed, in-transit, completed)	`orders`, `kpi_metrics`

PROF

Carrier Comparison

Method	Endpoint	Description	Main Tables
GET	`/orders?status=unassigned`	Retrieve list of orders without assigned carrier (used in *New Shipment* view).	`orders`, `customers`, `warehouses`

Method	Endpoint	Description	Main Tables
PATCH	`/orders/assign-carrier`	Assign selected orders to a carrier. Body includes `order_ids[]` and `carrier_id`.	`orders`, `carriers`, `audit_logs`
GET	`/orders?status=in_transit`	Retrieve list of all ongoing shipments (*Current Shipments* tab).	`orders`, `carriers`, `warehouses`
GET	`/orders?status=<status>&from=<date>&to=<date>&carrier=<id>`	Retrieve all historical orders with filters (used in *All Orders* tab).	`orders`, `customers`, `carriers`, `warehouses`
GET	`/carriers`	List all carriers available for selection.	`carriers`
GET	`/carrier-rates?origin=<zone>&destination=<zone>&weight=<kg>&service=<type>`	Fetch cost and transit time estimates for comparison (*New Shipment* view).	`carrier_rates`, `carriers`
GET	`/carriers/{id}`	Retrieve full carrier details (used in *Carrier Details* view).	`carriers`, `kpi_metrics`
GET	`/carriers/{id}/performance?period=<period>`	Get historical performance metrics for a carrier.	`kpi_metrics`, `orders`
GET	`/carriers/{id}/coverage`	Retrieve list of zones/regions served by the carrier.	`carrier_rates`, `carriers`
GET	`/orders/{id}`	Retrieve full details of a specific order/shipment (used in detail view).	`orders`, `customers`, `carriers`, `shipping_documents`

PROF

Reports & Analytics

Method	Endpoint	Description	Main Tables
GET	`/reports/templates`	Get available report types and templates (Performance, Cost, Exception, Custom)	`reports`

Method	Endpoint	Description	Main Tables
POST	`/reports/generate`	Generate a new report based on selected parameters (type, date range, filters)	`reports`, `kpi_metrics`, `orders`, `carriers`, `warehouses`
GET	`/reports/{id}`	Retrieve generated report details and metadata	`reports`, `users`
GET	`/reports/{id}/download?format=<pdf/excel/csv>`	Download a generated report in selected format	`reports`
GET	`/reports/history?type=<type>`	List previously generated reports by category or date range	`reports`
POST	`/reports/schedule`	Schedule recurring report generation (weekly, monthly, etc.)	`reports`, `users`
DELETE	`/reports/{id}`	Delete or expire a report from history	`reports`, `audit_logs`

Management & Settings

Method	Endpoint	Description	Main Tables
GET	`/users/me`	Retrieve logged-in manager profile	`users`
GET	`/audit/logs?entity=<entity>&period=<range>`	Fetch system activity logs for transparency	`audit_logs`
PATCH	`/settings/preferences`	Update dashboard settings (preferred KPIs, default filters, notification thresholds)	`users`
